

PRESS RELEASE

05 October 2022

CHT Group presents exciting chemical innovations for Home Care, Personal Care and Car Care at SEPAWA® CONGRESS 2022

- From 26 to 28 October 2022, CHT Group will participate in the most important meeting point of the detergents and cleaning agents as well as the cosmetics, and perfumery industry in Europe
- In focus: innovative and sustainable expansions of the HANSA® CARE and CHT-BeauSil™ ranges

From 26 to 28 October 2022, the CHT Group will be present at the SEPAWA® CONGRESS at the ECC ESTREL CONGRESS CENTER in Berlin with its own booth (B 301/302) to present its innovative products in the field of Home Care, Personal Care and Car Care.

The fluorocarbon-free **HANSA® CARE 7140 ECO** is particularly suited for formulating wash-in impregnations for textiles in the washing machine and, due to its chemical structure, leads to very good hydrophobicity on all synthetic textiles.

HANSA® CARE 7140 ECO is also suited for impregnation of glass, lacquer, leather, wood, mineral substrates, etc. Especially in the field of car, aircraft and boat care, paint and glass sealants based on HANSA® CARE 7140 ECO show particularly good resistance and allow easy removal of dirt.

HANSA® CARE 9640 D can be incorporated into a wide range of care formulations to provide beneficial properties such as water repellency, improved gloss and color depth, and a pleasant touch.

HANSA® CARE 9640 D can be used in car polishes, in waterless car cleaning, for sealing as well as in leather, furniture and vinyl care products.

CHT-BeauSil™ GEL 8187 EM is a silicone crosspolymer that results in a pleasant, smooth skin feel in a very short time. This emulsion can be added to the water, oil, and silicone phase as desired and can be processed both cold and hot. The product is an ideal raw material for the formulation of face masks.

CHT-BeauSil™ GEL 8015 is a matte silicone crosspolymer that imparts a silky, cushiony skin feel, masks wrinkles and supports moisturizing. The product is the perfect base for all make-ups, day, and night creams as well as lip gloss and sun care.

With **CHT-BeauSil™ RE-AMO 919 EM**, the CHT Group offers a sugar-modified silicone that consists of more than 94% recycled monomers and yet offers the same product quality as classically produced silicones. In hair care products, it leads to an improved combing behavior as well as smoothness and gloss in the hair.

The **SEPAWA® CONGRESS** offers a perfect mix of technical presentations by international experts on innovative developments and research results, as well as an exhibition area with more than 300 companies presenting their latest products and trends in the detergents and cleaning agents as well as cosmetics and perfumery industries.

Visit us from 26 to 28 October 2022 at our booth B 301/302 and convince yourself of our latest product developments in the field of Home, Personal, and Car Care. In the area "Application-oriented Posters **SEPAWA® e.V.**" CHT will present its innovative **CHT-BeauSil™ RE-AMO 919 EM** with poster 30.

About the CHT Group

The CHT Group is a medium-sized global player for specialty chemicals and active worldwide in development, production and sales. CHT Germany GmbH in Tübingen is the headquarters of the group of companies which focuses on sustainable chemical products and process solutions.

TEXTILE SOLUTIONS of CHT improve the quality, functionality as well as look and purity of textiles and optimize their manufacturing processes.

In the fields of silicones, building materials, paints, coatings, paper, agrochemicals as well as cleaning and care products innovative products and process solutions are provided by INDUSTRY SOLUTIONS.

By combining the strengths of the complete group further innovative products, applications or processes are continually developed and vast technical support is offered within the SCIENCE & SERVICE SOLUTIONS. Highly qualified specialists work in state-of-the art laboratories for development, analytics and application technique in order to work out ideas and solutions that meet the latest requirements.

The CHT Group with its own production and sales locations is represented by more than 26 companies worldwide. In the financial year 2021, the CHT Group generated a group turnover of 630 million Euro with around 2,400 employees.
