### 1. Printing method

First choose the printing method you desire.

### 2. Catalogue

The next step is to choose the color system for the printing color you want: Pantone, RAL, HKS, Lab\* or RGB values.

### 3. Color selection

Now you can choose the desired shade in the catalogue.

### 4. Pigments

Combine your individual pigment selection.

### 5. Result

The **ColorFinder** now combines the best recipe from a number of combination possibilities. After a few minutes you get a downloadable PDF in the selection window. The recipe is stored online and can be retrieved by you at any time and as often as you want in the dashboard of your profile.
