CLEAN CONCEPT

EMULSION PRODUCT LINE

WHAT IS THE CLEAN CONCEPT?

The clean beauty movement embraces both natural and man-made ingredients, putting the focus on safety over source. Not all "natural" ingredients are safe (i.e. lead or poison ivy) and not all synthetic ingredients are unsafe.

BeauSIL FLUID 8101 EM
INCI Name – Dimethicone, Decyl Glucoside and Lauryl Glucoside

Preservatives: Caprylyl Glycol, Phenoxyethanol and Hexylene Glycol

60% active non-ionic emulsion of 350 cSt polydimethylsiloxane. Contains naturally derived surfactants & mild preservatives.

BeauSIL FLUID 8103 EM
INCI Name – Dimethicone, Decyl Glucoside and Coco Glucoside

Preservatives: Caprylyl Glycol, Phenoxyethanol and Hexylene Glycol

60% active non-ionic emulsion of 60,000 cSt polydimethylsiloxane. Contains naturally derived surfactants & mild preservatives.

BeauSIL GEL 8186 EM
INCI Name – Dimethicone, Polysilicone-11, Decyl Glucoside and Butylene Glycol

Preservatives: Citric Acid, Disodium EDTA and Sodium Benzoate

80% active non-ionic emulsion polysilicone-11 crosspolymer. Contains naturally derived surfactants & mild preservatives.

BENEFITS AND FEATURES

- Naturally derived surfactants
- Extra mild
- Cyclomethicone free
- EO/PO Free
- MIT/BIT Free
- Paraben-free
- Formaldehyde-free
- Compatible with anionic, cationic and non-ionic surfactants and emulsifiers
- Toxicologically safe for use
- Equally suitable for use in both rinse-off and leave-on

SPECIALTY ENGINEERED

Formulation Lab

CHT offers you an international team of highly skilled experts in the field of specialty silicones for personal care products. We are the first choice when it comes to expertise, performance, product range, and sustainability. However, what really sets us apart is our responsibility and dedication to every single customer. We cater to large enterprises as well as small niche producers with the same diligence. Our experts will personally take on every challenge when it comes to finding the solution that is best for you.

With state-of-the-art R&D and applications labs, our team is ready to help solve your current formulation troubles or customize a product that will set your formulations apart from the competition. Our silicone experts are eager to meet your challenge.
