

PRESS RELEASE

14 April 2026

PRSE 2026: CHT Group presents smart recycling solutions in Amsterdam

From **May 5 to 6, 2026**, the CHT Group will be showcasing effective and efficient solutions for quality improvement and process optimization in aqueous plastic cleaning processes at its **booth AA16 at the Plastics Recycling Show Europe (PRSE)** at the RAI Convention Center in Amsterdam.

The main focus is primarily on:

- **TUBIWASH** are highly efficient cleaning agents for plastic recycling that produce exceptional flake quality and thus contribute to improved quality. Products from the TUBIWASH range help save resources such as water, energy, and chemicals. The TUBIWASH portfolio also includes specialized products designed to support the decoloration of packaging materials.
- **TUBIFOAM** are efficient process aids based on sustainable raw materials that eliminate process foam. Even small amounts ensure smooth machine operation and trouble-free water treatment. In the interest of sustainability and health protection, mineral oil-based defoamers are not used.
- **TUBIWET** are high-performance deaerators which ensure a single-material density-based separation of the individual plastics (e.g. PET and HDPE / PP) in the flotation bath.

About the CHT Group

The CHT Group is a globally active foundation-owned specialty chemicals manufacturer headquartered in Tübingen, Germany. We offer sustainable chemical solutions for numerous industries and have an international presence with around 2,500 employees and 26 production sites. In the financial year 2025, the CHT Group generated a group turnover of 572 million Euro.

Our portfolio includes **Textile Solutions** (dyes and auxiliaries for the entire textile value chain), **Industrial Solutions** (specialty silicones, paper, and pulp technologies, washing solutions, care ingredients), and **Functional Chemicals** (chemical additives for paints, coatings, construction, adhesives, leather, chemical producers, agrochemicals, mining, and release agents).

The CHT Group is certified according to international standards and is committed to sustainability and social responsibility.

In 2028, we will celebrate our 75th anniversary.
