

## PRESS RELEASE

20 March 2026

### **CHT Group will be showcasing intelligent specialty chemical solutions for technical textiles at Techtexil 2026**

At this year's Techtexil in Frankfurt on the Main, the CHT Group will be presenting its comprehensive portfolio of tailor-made specialty chemicals and process solutions for technical textiles. As a reliable partner to the global textile industry, CHT offers innovative products and in-depth technical expertise across all areas of the textile value chain – from pretreatment, dyeing, and printing to finishing, coating, and fiber auxiliaries.

The focus of the trade fair presentation will be on solutions that meet the highest standards of **functionality, sustainability, and quality**. CHT's specialty chemicals are used in a wide range of industrial applications – from high-performance coating systems and pure, recyclable product solutions to innovative composite materials.

#### **Expertise along the entire value chain**

With decades of experience in the development and application of specialty chemicals, CHT supports its customers from the initial idea to successful industrial implementation. The goal is to work together to design the products of tomorrow and enable sustainable textile innovations.

The CHT Group's solutions are used in numerous application segments:

#### **Mobiltech**

- Flame-retardant finishes and coatings for interior textiles, carpets, seat covers, and technical composites
- Special adhesives for flocking

**CHT Germany GmbH**  
Bismarckstraße 102  
72072 Tübingen

USt.-IdNr. DE 152 274 099

**Bank account:**  
Commerzbank Tübingen  
IBAN DE13 6414 0036 0891 3832 00  
BIC COBADEFFXXX

### **Medtech**

- Coatings and finishes for mattress protection and surgical textiles
- Special fiber auxiliaries for hygiene and medical products

### **Protech**

- Flame-retardant, chemical-resistant, and weatherproof finishes and coatings
- Solutions for industrial and protective clothing for public authorities

### **Hometech / Interior**

- Coatings and finishes for advertising and event textiles, banner fabrics, trade fair coverings
- Solutions for furniture covers, carpets, and cleaning textiles

### **Indutech**

- High-performance coatings and finishes for filter media, conveyor belts, and technical fabrics

### **Buildtech**

- Coatings for architectural membranes, facades, and functional light protection systems
- Applications for textile-reinforced concrete, insulation materials, and sewer rehabilitation

### **Sporttech & Outdoor**

- Finishing and coating systems for awnings, tents, and protective covers

### **Innovative product ranges for modern textile applications**

The portfolio includes both **water-based** and **silicone-based printing and coating systems**, in particular from the well-known **ALPATEC range**, which opens up new functional possibilities for technical textiles – and all this reliably from a single source.

There is a particular focus on sustainable solutions:

### **Circular economy as a strategic guiding principle**

The CHT Group consistently integrates the principles of the circular economy into its research and development. A single-type end product – such as carpets, filters, or technical nets – is much easier to recycle and return to the recycling cycle. With our **TUBICOAT PET** range, CHT offers a coating line specially developed for single-type polyester materials.

### **PFC-free hydrophobic agents**

The **ECOPERL product range** offers high-performance, PFC-free DWR solutions, some with a high share of bio-based components, suitable for a wide range of technical applications.

Numerous products naturally comply with leading international standards such as **ZDHC, bluesign®, GOTS, Oeko-Tex® Standard 100, Cradle to Cradle® Material Health Certificate, GRS** – a clear commitment to quality, transparency, and sustainability.

### **Visit us at Techtexsil 2026**

The CHT Group invites trade visitors to Techtexsil 2026 in Frankfurt on the Main to learn more about its intelligent auxiliaries and broad expertise in the field of technical textiles.

**Visit us from April 21–24, 2026, at our booth D 51 in Hall 9 at Techtexsil in Frankfurt on the Main.**

### **About the CHT Group**

The CHT Group is a globally active foundation-owned specialty chemicals manufacturer headquartered in Tübingen, Germany. We offer sustainable chemical solutions for numerous industries and have an international presence with around 2,500 employees and 26 production sites. In the financial year 2025, the CHT Group generated a group turnover of 572 million Euro.

Our portfolio includes **Textile Solutions** (dyes and auxiliaries for the entire textile value chain), **Industrial Solutions** (specialty silicones, paper, and pulp technologies, washing solutions, care ingredients), and **Functional Chemicals** (chemical additives for paints, coatings, construction, adhesives, leather, chemical producers, agrochemicals, mining, and release agents).

The CHT Group is certified according to international standards and is committed to sustainability and social responsibility.

In 2028, we will celebrate our 75<sup>th</sup> anniversary.
